

Is this bank worth an email?

HALF 1

Find prospects

Public lists exist

HALF 2 · WHAT I BUILT

Judge one bank

Is it worth your time?

THEN

Who to approach

And what to say

THE TEST SET

Four banks, chosen on purpose

BANK, AND WHY	FIT	TIMING	RELATIONSHIP	WHAT THE AGENT DID
Burke & Herbert Midsize, just merged	Core	3/5	None found	Whole way: one contact, one email
Huntington Big news, very large bank	Stretch	3/5	None found	One message, not a campaign
BMO Already on Lyzr's site	Stretch	3/5	On Lyzr's site	Goes to its account owner. No email.
Pioneer A name two banks share	not judged	no rating	not checked	Stops and asks which one

Three banks rated 3 of 5. Three different next steps.

THE BUILD

A sales team, one job per seat

MANAGER · hands out the work · checks every hand-off · builds the card

IN LYZR STUDIO

The real build

1 · MANAGER ORCHESTRATION

2 · KNOWLEDGE BASE

Three sources, on the analyst only.

3 · TOOL

Web search, on the two researchers only.

THE OUTPUT

Three banks, three real answers

BURKE & HERBERT · THE WHOLE WAY

Burke & Herbert Bank — 5 October 2026

Core fit · 3/5 · medium confidence. Next action: prepare one exploratory contact; nothing is sent.

The [May LINKBANCORP merger](#) and [June LINKBANK customer conversion](#) create a timely reason to ask about compliance tracing. A [third-party summary](#) puts *parent-company* assets at \$10.99 billion; bank-only assets are unknown. Counterevidence: a [job posting](#) describes compliance programs already maintained and monitored. The key question is whether existing tools keep obligations linked to post-merger policies, controls and evidence.

Why Madison: The conversion could make tracing one obligation through those links useful; neither a gap nor a need for Madison is confirmed. [Madison](#) connects these records but does not determine compliance.

PIONEER · STOPS AND ASKS

I found more than one bank called Pioneer, so I can't rate the account without risking a mix-up. Did you mean [Pioneer Bank at bankwithpioneer.com](#), [the New Mexico Pioneer Bank at pioneer.bank](#), or another Pioneer?

A website or location is enough to continue.

BMO · NO COLD EMAIL

No draft: The analyst found a [public Lyzr reference to BMO](#), but no confirmed contract or Madison deployment. Verify it in the CRM first; outreach was not sent for review. Evidence of an owned controls initiative—or an active evaluation and deadline—could raise the rating.

Nothing is sent. A person decides.

WHAT TESTING TAUGHT ME

Two things broke

Same bank, two ratings

Huntington rated 4 in early runs and 3 in later ones. So the card always shows its evidence.

A sourced detail was rejected

The reviewer never got the people research: one missing hand-off line. I fixed it and reran all four banks. Each took the path I expected.

NEXT

A whole list of banks

A CRM and a people-data tool

Measured replies

Hand-offs between agents are what I would work on in Architect.
